

SHREYA GOLATKAR

Product Designer | Enterprise SaaS & Complex Workflows | Design Systems | Design-to-Code
golatkarshreyax@gmail.com | +91-9892796644 | [Portfolio](#) | [LinkedIn](#)

PROFESSIONAL SUMMARY

UI/UX Designer with 3+ years of experience designing enterprise SaaS platforms and workflow-driven applications in Agile environments. Experienced in collaborating with cross-functional teams including developers, product managers, and stakeholders to deliver scalable and user-centric digital solutions. Skilled in UX Research, Information Architecture, Wireframing, Prototyping, Design Systems, and Dashboard UX with strong understanding of enterprise cloud and infrastructure platforms.

CORE SKILLS

UX Strategy & Research: User Research, Stakeholder Interviews, Personas, Journey Mapping, Information Architecture, Heuristic Evaluation, Usability Testing

Enterprise UX & Systems Design: SaaS Platforms, Dashboard Design, Workflow Optimization, Multi-step Configuration Flows, Data Visualization, Design Systems

Tools & Delivery Frameworks: Figma, FigJam, HTML, CSS, React (working knowledge), Angular, Agile, Scrum, Jira, Developer Handoff

Consulting Environment Skills: Requirement Gathering, Cross-functional Collaboration, Iterative Design Sprints, Client Feedback Incorporation, Documentation

PROFESSIONAL EXPERIENCE

UI/UX Designer & Frontend Developer — **Kemar Port Automation Ltd**

Apr 2026 – Present

- Design and develop enterprise applications across **industrial automation, logistics, and operational workflows**, working across UX, UI, and frontend implementation.
- Led the end-to-end UX/UI design of the FIAT Trolley Tracking System, translating complex operational requirements into structured workflows, dashboards, and monitoring experiences.
- Established the visual language, reusable UI patterns, and design system for the FIAT application to maintain consistency and scalability across screens.
- Collaborate with product stakeholders and developers throughout requirements, design iteration, implementation, and refinement.
- Redesigned the Mahindra dashboard, improving information architecture and the presentation of operational data.

UI/UX Designer & Frontend Developer — **Mahity Systems**

Nov 2023 – Apr 2026

- Led end-to-end UX design for a Cloud Hosting & Infrastructure Management Enterprise Platform.
- Designed 80+ high-fidelity screens across deployment, database management, backup, and monitoring modules.
- Structured complex multi-step workflows improving clarity in infrastructure configuration processes.
- Developed and maintained a scalable Design System ensuring UI consistency across modules.
- Collaborated with developers during Agile sprints to ensure accurate design translation and reduced implementation gaps.
- Participated in requirement discussions and iterative design reviews with stakeholders.
- Designed operational dashboards for monitoring system health and infrastructure metrics.

KEY ENTERPRISE PROJECT

Cloud Hosting Platform (Enterprise SaaS Solution)

- Designed deployment configuration flows for cloud infrastructure setup.
- Created user flows and information architecture for technical configuration journeys.
- Built reusable UI components for scalability and faster feature releases.
- Focused on usability improvements in high-complexity technical workflows.

CERTIFICATIONS

- Google UX Design Professional Certificate – Coursera
- AWS Certification – Amazon Web Services
- Software Development Certification – IT Vedant
